Instructions

1. Trace the upper portion of the cardboard carrier onto the Stars of Glory paper and cut out. You will need to do two of these. Adhere to the top sections of the carrier using permanent, double sided tape.
2. Measure and cut sections of the America the Beautiful paper so that it can wrap around all four sides of the main portion of the carrier. Adhere to the carrier.
3. Cut thin strips of the We the People paper (only the light tan section) and adhere to the bottom edge of the carrier and along the top section. Trim with a very thin strip of red cardstock. Add five large gold brads to the strip on the top edge of the carrier. (The brads only go on the front side).
4. Cut the lacy edge from the Narratives Cream scroll paper and mount onto a strip of red cardstock. Adhere this to the top edge of the carrier.
5. Trace the "4", "7" and "h" using the Pizzazzill chipboard as a template. Cut out these numbers/letters from the Stars of Glory paper. Adhere the paper cut outs to the chipboard. Using double sided permanent tape, adhere these to the front lower right hand corner of the carrier. Add a large gold brad to the top of each character.
6. Stick the large flag sticker onto a scrap piece of cardstock. Cut around the outer edges. Cut off the prongs from a large gold brad and glue to the top of the dowel. Glue the flag onto the dowel.
7. Plant your red and white flowers in the pockets of the carrier and add the flag.
